COMPUTER SCIENCE — HONOURS — PRACTICAL

Paper : SEC-3P

(Mobile App Development)

Full Marks : 50

The figures in the margin indicate full marks.

SET - IV

Marks Distribution :

User Interface (UI) / Front End	:	05
Procedure/Steps	:	10
Source Code	:	10
Output	:	07
Conclusion/Discussion	:	03
Experiment Total	:	35
Laboratory Notebook	:	05
Viva voce	:	10
Total	:	50

Answer any one question.

1. Develop a Flutter App using Dart programming to change the background color of the screen for each time by clicking a button captioned 'Change Color'. 35
2. Develop a Flutter app using Dart programming that functions as a stopwatch with start and stop function. The app should include a display area to show start and stop button and an area where the time duration between start and stop, will be shown. 35
3. Develop a Flutter app using Dart programming that includes a text field for entering a message and displays the message. Add a button that works as a toggle to hide or unhide the message. 35

4. Develop a Flutter app using Dart programming that allow user to enter name of five Animals and displays first three names upon clicking a button. Include another button that navigates to a different or same page. 35

 5. Develop a Flutter app using Dart programming that creates a list of names for individuals eligible to vote. The app should take input from the user, including name and age, and use to List and map to filter and display two separate lists: one for those who are eligible to vote and one for those who are not eligible. (Eligibility criteria for voter: age ≥ 18 Years.). 35

 6. Develop a Flutter app using Dart programming that allows users to convert temperatures between Celsius and Fahrenheit. The app should include an input field for the temperature value, drop-down menus to select the input & output, and a Submit button to perform the conversion. 35

 7. Develop a Flutter app using Dart programming that implements a Drawer menu with three items: Home, About, and Contact Us. 35

 8. Develop a Flutter Personal Profile MobileApp using Dart programming that displays your personal profile, including your name, photo, and a brief Curriculum Vitae. Use different Flutter widgets such as 'Container', 'Row', 'Column' and 'Text'. 35
