COMPUTER SCIENCE — HONOURS — PRACTICAL

Paper : SEC-3P

(Mobile App Development)

Full Marks : 50

The figures in the margin indicate full marks.

SET - III

Marks Distribution :

User Interface (UI) / Front End	:	05
Procedure/Steps	:	10
Source Code	:	10
Output	:	07
Conclusion/Discussion	:	03
Experiment Total	:	35
Laboratory Notebook	:	05
Viva voce	:	10
Total	:	50

Answer *any one* question.

1. Develop a Flutter app using Dart programming that allows users to convert temperatures between Fahrenheit to Celsius. The app should include an input field for the temperature value, drop-down menus to select the input & output and a Submit button to perform the conversion. 35
2. Develop a Flutter app using Dart programming to allow user to create, edit and delete list of tasks and display in the same or different page. 35

3. Develop a Flutter app using Dart programming that allow user to enter name of five fruits and display last three names upon clicking a button. Include another button that navigates to a different or same page. 35
4. Develop a Flutter Recipe App using Dart programming
- Create a recipe app that displays a list of recipes.
 - Each recipe should have a detail page with ingredients and instructions.
 - Implement navigation between the list and detail pages. 35
5. Develop a Flutter app using Dart programming to display a list of 10 items using a `Listview.builder()` and allow user to click on an item and show details on different or same page. 35
6. Develop a Flutter app that generates a payslip for a given month. There will be a way to provide text field for input of Basic salary and calculate HRA (House Rent Allowance), DA (Dearness Allowance), Gross Salary, IT (Income Tax) and Net Salary. Give proper title on the app bar. The values will be calculated as follows :
- $HRA = 20\% \text{ of Basic salary}$
 - $DA = 15\% \text{ of Basic salary}$
 - $MA \text{ (Medical Allowance)} = ₹ 600$
 - $Gross Salary = Basic + HRA + DA + MA$
 - $IT = 5\% \text{ of Basic Salary}$
 - $Net Salary = Gross - IT.$ 35
7. Develop a Flutter app using Dart programming that functions as a stopwatch with start, stop and reset functionalities. 35
8. Develop a Flutter Image Gallery App using Dart programming to upload multiple number of image and display them as following structure :
- Height and width 200 px each
 - Background colour : Blue
 - Corner should be rounded. 35
